June 6, 2013

### **Water Quality Report Now Available**

In an effort to be more environmentally responsible, the Village of Romeoville is no longer printing and mailing the Annual Water Quality Report, however, we are providing a full copy for your reference on our website.

To see how Romeoville's water quality compares with established federal and state drinking water standards, visit [www.romeoville.org](http://www.romeoville.org). You can print from the link on our website, or contact our Public Works Department at (815) 886-1870 to receive a printed version.
