## **Village Continues to Beautify Community**

The Village continues to further its vision to create enhanced streetscapes within Uptown Square. Recent Village Board approval will allow for the installation of additional decorative lighting along Dalhart Avenue which will complement the upgrades made to adjoining streets. These improvements along with many others within this area continue to enhance public spaces while creating a pedestrian friendly environment.

Other enhancements within the Village that were approved include additional landscaping within the newly installed Weber Road islands.

"The proposed improvements are an investment to enhance safety and accent the overall appearance of our community," said Mayor John Noak.

These improvements are part of the Village's overall beautification plan to enhance gateways and major throughway fares within the community.
