Metal Monkey Brewing to Open in Romeoville

The Village Board gave their approval to The Metal Monkey Microbrewery to operate at 515 Anderson in Romeoville. Metal Monkey will serve limited amounts of beer in the tasting room and patrons will be allowed to purchase growlers for off-site consumption.

Mr. Camp, Managing Member of Metal Monkey, noted that the initial annual production will be 500 barrels (or 15,500 gallons) with the ability to go up to 1,000 barrels (or 31,000 gallons) based on available equipment.

With over a decade of brewing experience, Metal Monkey Brewing, offers a unique craft beer experience that has already received numerous awards. Metal Monkey is known to use locally sourced ingredients in all small batch, hand crafted brews.

The opening of the microbrewery is anticipated sometime this Fall. For more information on Metal Monkey Brewing, visit their website at www.metalmonkeybrewing.com
