

Junked Vehicles Wanted!!!!

Got an unfixable clunker sitting in your driveway that you need to get rid of? Don't pay a towing company to get rid of it; the Romeoville Fire Dept. has the answer for you! The Department's Training Division is always seeking broken-down vehicles for donation. The vehicles are used for hands-on real-world training in rescuing entrapped people in car accidents. They practice using their "jaws of life" and other rescue tools. The paramedics also practice how to remove victims properly and safely from the vehicle with their cervical collars and backboards to prevent further neck and back injuries. The Romeoville fire investigators also use the vehicles to help determine the causes of vehicle fires.

Vehicles can be donated in any condition, even if it runs or not. Vehicles can either be dropped off at the fire department or they can arrange to have it towed at no cost to you. Most importantly, you will receive a donation letter making your vehicle donation tax deductible! All that is required is you must have a valid title for the vehicle. For information on vehicle donation, please contact Megan at 815-372-4042.
